

KASHISH RICHHARIYA

Retail Experience Designer · Spatial Design & Product Design Systems

7000063691 | kashishrichhariya0204@gmail.com | Bengaluru, India

I design retail environments that turn store space into a system — one that scales across dozens of stores while staying rooted in local craft and customer experience. Over five years at Tanishq (Titan Company Ltd), I've moved between two registers: the spatial designer's eye for material, atmosphere, and journey, and the product designer's discipline of building standardized, replicable design systems across façades, layouts, and identities. I'm looking to bring that dual fluency to teams building physical or product experiences at scale.

EXPERIENCE

Tanishq (Titan Company Ltd)

Bengaluru | 2021 – Present

Senior Executive (2021 – Apr 2024) → Deputy Manager (Apr 2024 – Present), Retail Experience Design

2021 – Present — Store Design & Spatial Strategy (Core)

Led interior design and spatial strategy for key customer interaction zones across 30+ store rollouts nationally, from concept through execution — the continuous thread across every project below.

2023 — Façade Standardization

Designed a modular façade system replicated across 10 stores in South India, unifying street-level brand presence and cutting design-to-execution time.

2023 — Micro-Identity Design — Exotic India

Developed a localized micro-identity concept, layering regional character into a national store format without disrupting its scalability.

2023 — Rivaah Floor Identity Standardization

Standardized the Rivaah (bridal) floor identity across a national store format — walls, partitions, and zoning systems designed for consistent, repeatable rollout.

2023 – Present — Layout Design & Stakeholder Alignment

Delivered store layouts for 30–40 stores across two years, working directly with business stakeholders and franchise partners to align design intent with commercial and operational realities.

2024 – 2025 — Rivaah Store Identity (Flagship)

Owned the complete identity system for the Rivaah flagship end to end — colour palette, material palette, and the full spatial journey design.

2025 — Back-of-House Standardization & Cost Optimization

Standardized non-customer-facing spaces across the store network, reducing build cost while holding operational and service standards.

Mar 2025 — Board Meeting Exhibition Design

Directed layout strategy and oversaw on-ground execution for an exhibition hosted for the Tata Group board.

2026 – Present — RK Studio — Case Studio Design

Conceiving a museum-grade retail experience within Raj Kapoor's studio, translating cinematic heritage into an immersive spatial narrative. In progress.

2026 – Present — Mia Brand Identity Design

Developing the spatial identity system for the Mia brand. In progress.

CORE STRENGTHS

Spatial Design

Designing for constrained and unconventional store footprints · façade design · weaving regional craft into spatial narrative while holding brand aesthetics consistent

Brand Identity

End-to-end identity systems for retail categories (e.g. Rivaah) — colour palette, material palette, and spatial expression of brand

Retail Strategy

Store layout strategy · customer journey design · rollout and standardization across large store networks

Fixture & Furniture Design (FF&E)

Scalable fixture and furniture systems — mirrors, chandeliers, mannequin cases — designed for consistent replication across the store network

EDUCATION

Bachelor of Design (B.Des), Fashion & Lifestyle Accessory

National Institute of Fashion Technology (NIFT), Bengaluru
